GTT CENTER PERTH

Western Australia's first premium waiting experience for expecting mothers having the Glucose Tolerance Test (GTT)

Our research found no equivalent venue in Western Australia. This is our own finding, not an audit.

Pre-launch. No venue yet. No launch date set.

DRAFT 2026-10-17

Working name. Pitch deck v0.6.

The problem

Wait time
2 to 2.5 hours
Some sources say up to 3

Setting
Waiting room
Bare pathology room

Care during wait
None
Fasting, tired, cannot leave

- The GTT is a standard pregnancy screening test, recommended for expecting mothers, usually between 24 and 28 weeks. It is optional: every expecting mother chooses.
- Nearly every expecting mother is offered it.
- Gap: no Western Australian venue turns this wait into a care experience.

The wellness solution

Massage	Nails	Hair	Beauty

- Blood is drawn on site in a private collection room.
- Certified phlebotomists, rostered to the morning's bookings: one up to 9 clients, two from the tenth. Who employs the collectors is being settled in writing with the pathology partner.
- Services fit between draws. **Wellness services never interrupt a blood draw.**
- Wellness staff are employed (casual or permanent).
- Venue and lounge access is free inside every package.

Western Australia and Greater Perth births

Measure	2023	2024
Registered births, Western Australia	32,031	30,541
Registered births, Greater Perth	25,436	24,271
Total fertility rate, Greater Perth	1.58	1.47
Perth births per week	489	467

Perth glucose tolerance tests a week (births used as a stand-in)

about 467

24,271 births divided by 52. To be confirmed.

Our planned capacity

18 clients a morning, 108 a week

About 23% of Perth's weekly tests. A ceiling on places offered, not a forecast and not market control.

GTT is a premium, high-desire choice for the expecting mother who wants a comfortable wait. Most expecting mothers will still test at their usual collection centre.

Source: Australian Bureau of Statistics, Births, Australia 2024 (released 15 October 2025) and Data by region. The 2025 figures are due on 6 November 2026 and will replace these.

How a visit works

1. Book and pay online, 2 to 4 weeks ahead.
2. Arrive fasted 10 minutes before your draw (06:50 for the 07:00 draw). Check in and consent.
3. Draw 1 (about 5 minutes), then the glucose drink.
4. Wellness service 1 (30 or 45 minutes). It never interrupts a draw.
5. Draw 2 at 60 minutes, then wellness service 2 (30 or 45 minutes).
6. Draw 3 at 120 minutes.
7. Relax in the lounge, have something to eat or drink from the Private Refreshment Counter, or continue to pre-booked standalone services.
8. One courier pickup per day. GTT does not diagnose or interpret results.

First booking
07:00

Clients per morning
up to 18

Collection rooms
2
2 chairs, 1 or 2 phlebotomists

Trading days
Mon to Sat

Lab partners

What we offer

- A steady morning stream of GTT patients at one site (up to 108 a week)
- Rooms ready for your employed collectors (preferred), or our certified phlebotomists if you agree in writing
- 2 equal collection rooms of 19.0 sqm with their own specimen fridges, to NPAAC standards
- One courier pickup per day
- We earn nothing from pathology billing

What we ask

- Courier pickup
- Lab testing
- Results reporting to the doctor
- Tubes and bags
- Collection room requirements in writing
- Written fees

NPAAC = National Pathology Accreditation Advisory Council

Predictable daily volume

Bookings 2 to 4 weeks ahead + a pre-launch waitlist = a full morning from day one and one courier pickup per day

Book ahead

2 to 4 weeks

Prepaid online booking inside the usual 24 to 28 week window

Waitlist

Always on

Opens before launch and backfills cancellations so each morning stays full

Courier pickup

One per day

With the sample count known in advance

- Each morning's client count is confirmed days ahead, so the lab can plan for the expected samples.
- We share the forecast before each week. There is one courier pickup per day.
- Launch marketing and the waitlist fill the diary before opening, so GTT opens at 18 bookings a morning.

Pricing

GTT Package 1

A$250

Venue and lounge free + 2 x 30-minute services

GTT Package 2 (most flexible)

A$300

Venue and lounge free + 2 x 45, or 45 + 30, or 2 x 30 minutes

PM Refresh

A$185

75 minutes: massage + mini facial

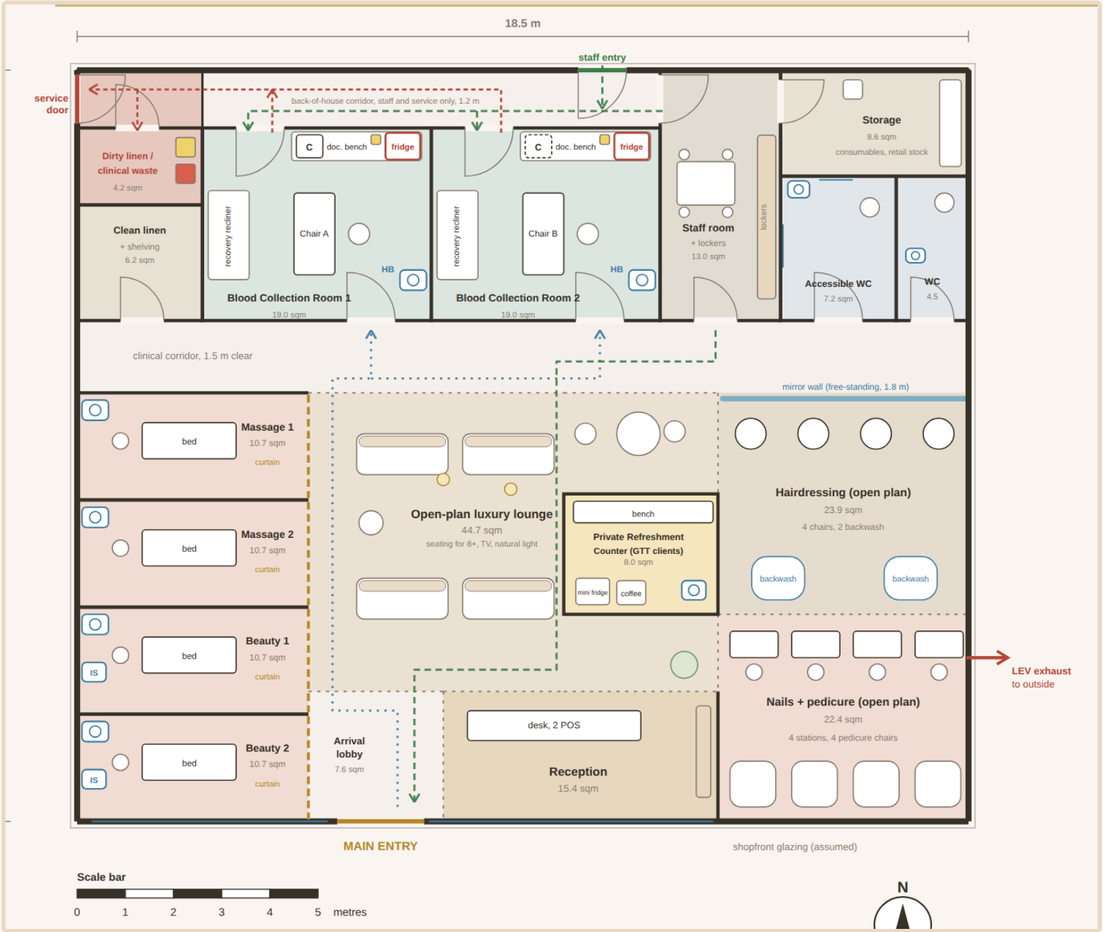

PM Restore

A$135

75 minutes: manicure + blow-dry

- Prices are GST-inclusive and are our own. Not tested with customers yet.
- The test is billed by the lab to Medicare, separate from our package: A$0 out of pocket for a Medicare card holder. The Medicare schedule fee is A$25.85 a visit; no lab has quoted a fee yet.
- **10% off after your test:** any expecting mother who completes a glucose tolerance test can redeem 10% off a standalone treatment or multi-service package, morning or afternoon, valid immediately. One use per test. Expiry and exclusions are proposed terms.

Floor Plan and Design

Concept layout version 2, 18.5 m x 15.6 m (288.6 sqm). Concept only, not for construction; subject to site survey, architect and NCC compliance. Full page with change list.

1. Two equal blood collection rooms of 19.0 sqm, each with its own specimen fridge, handwash basin, recovery recliner and documentation bench (or one large room divided by a clinical privacy curtain).
2. Every room opens onto a corridor or the lounge. Staff reach the staff room without passing the service and linen area.
3. A separate service door and staff-only corridor carry clinical waste and soiled linen away without crossing any client area.
4. Hair and nail areas sized at 5 to 6 sqm per station, giving a larger open luxury lounge beside the Private Refreshment Counter, kept apart from specimens and clinical waste.
5. Massage and beauty bays with partition walls, privacy curtains and a handwash basin in every bay; one accessible and one standard toilet shared by clients and staff.
6. Used to brief the architect, obtain fit-out quotes and source furniture and fixtures, including direct from China where compliant.

Roadmap and gates

Stage	What happens	Gate
0	Venue search. Pathology partner talks. Waitlist can start early	None
Gate A	Lab agreement in place (WDP, PathWest or Clinipath)	Written terms
Gate B	Venue location confirmed	Site and lease terms
1	Venue Manager hire. Lease. Architect and fit-out quotes	A + B
2	Recruitment of phlebotomists and treatment staff	Venue Manager in place
3	Training, test runs, soft open, public launch	Fit-out done, staff hired

No calendar dates. Launch is undated. Go-live trigger: first confirmed customer booking.

Business structure

Heading	Position
Structure	GTT Center Perth will trade through a dedicated Australian proprietary company, with its own insurance, lease, employment arrangements and tax registrations.
Ownership	The company is owned by a family trust. Ownership is separate from day-to-day management.
Management	A full-time employed Venue Manager runs the business day to day, reporting to an independent director.
Risk containment	Clinical and public liability sits in the operating company, covered by its own public liability, professional indemnity and workers compensation insurance. The founder's other assets are held in separate entities and do not guarantee the venture.
Partners	The pathology partner is contracted by the operating company. Practitioners are employed by the operating company.
Options considered	Trading directly through an existing trust (not recommended); a new company owned by a family trust (recommended); a fully separate new structure (strong alternative); hybrids (no advantage found).
Status	Subject to advice from the company's accountant and solicitor before the lease and contracts are signed.

DRAFT

DRAFT for Anthony's approval. Not for distribution until approved.
